As Freshmen we came,
We questioned—
Why are we here?
And the year dragged on.

Sophomores we were,
Another whole year was spent.
Now; Why are we here?
No answer, no reply.

The Junior Class was here and gone,
We were all a part of it then.
Again we ask; Why are we here?
We contemplate, perhaps we guess.

The Senior year came at last,
We were old and educated then; we thought.
But still we wonder; Why are we here?
Must we answer now? Is this the time?

Our four years are gone now,
The world is ours, we are the world's.
Is our question answered?

Why were we there?
Were we there to learn?
Perhaps—but more;
To live, oh yes, to live.

DEDICATION

We the senior class of 1968 sincerely dedicate our North Star to a man who has contributed his very being to us. He is a man who has accompanied many of us on our journey through four years of man's recorded mistakes. None of us will ever forget how he has reached out and touched and all that he touched became part of him . . . the recognition, failure, laughter, work, friendship, disappointment and spirit of life became part of him . . . and no student became like another . . . and each grew through his understanding and tutelage.

Thank you Mr. "O" for all. We are the better for having known you. Through you and because of you it can be said of us:

"We are like dwarfs seated on shoulders of giants. We see more things than the ancients and things more distant, but it is due neither to the sharpness of our sight nor the greatness of our stature, it is simply because they have lent us their own."

(Bernard of Chartres)

To Mr. George Oleske, coach, teacher, friend, we the class of 1968, sincerely dedicate our North Star.

FOREIGN EXCHANGE STUDENT

Gloria enjoys an American Christmas at the foster home with her "Sister" Karen.

Being an AFS student has been one of the best experiences that has happened to me.

It means meeting many wonderful people, learning how to like a country which is not mine, and making new friends I would like to take back with me. Watching the snow falling outside, trying to find words that would describe it, and having surprises each day. But it is mainly learning about people and discovering things about myself. I ask many questions everyday, and explain why my glasses have green lenses.

My heart is full of memories of NT, friends and many happy times.

I learned so much about America, and I hope all of you understand my Brazil a little better after this year.

It will be hard to say good bye. I already love my school, my friends, and my city. I am a part of it, as it is a part of me.

I hope I can come back someday to North Tonawanda. Till then, I'll be thinking about all of you and our good old NT.

Now, I can only say thank you for your smiles, your friendship, everything that has made this year unforgettable.

GLORIA DE MELLO

AMERICAN FIELD SERVICE

Bob in Switzerland with a friend.

Peace through understanding is a phrase which holds within itself the true goal of the American Field Service. Only through knowledge and compassion for our fellow human being, can we peacably exist together. The opportunity to live with and to grow to love and understand a family in a foreign nation is a chance in a lifetime which I can honestly say now, I wouldn't have given up for anything.

Switzerland, the country of mountains and chalets and William Tell, was my home for nine short weeks this past summer. The city of Neuhausen, in the canton of Schaffhausen, served as headquarters for my summer of travel and learning. The life of this small but unbelievably beautiful country

was shown to me through numerous trips with my "brother," "mother" and "father." The glory of the Alps and the beauty of the medieval cities all combined to create memories no one could forget. The warmth of these wonderful people and especially that of my own family is the most unforgettable discovery of the entire summer.

All men are the same, no matter what country they are from or what language they speak. We must all learn to know our fellow men and then there will be peace.
